Teach to Stay Away

This clinic is a safe, humane and proven way to teach your dog to avoid rattlesnakes. Rattlesnakes can be found almost anywhere, and their bites are quite common, dangerous and usually very expensive to treat. Our avoidance training teaches dogs to recognize and stay away from the scent, sound and sight of rattlesnakes they may encounter.

Education and Safety

The safety and comfort of your dog is our highest priority! The training takes place in a controlled environment using a remote training-collar system adjusted specifically to each dog's temperament, personality and physical response characteristics. We use only the minimum level of stimulation to produce the desired education. Yearly training is recommended to refresh and strengthen your dog's rattlesnakes awareness.

Vaccine Available

The Rattlesnake Vaccine is \$35 per dog. First-timers or small dogs will need more than one vaccine. A rattlesnake bite can flood a small dog's body in minutes, so they must have more anti-venom in their systems to be protected. The Vet can recommend the appropriate dose for your dog.

Rattlesnake vaccines
on **SUNDAY April 8th**
from 10:00 AM - 3:00 PM.

**If your dogs spend any time outside
in your yard, field or on the trails,
they are in **danger of rattlesnakes!****
